Claim Rejections - 35 USC § 112

1. Claims 1-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 14, 'to' apparently should be 'for' for clarity. Also, on line 16, it is unclear from the claim whether the enhancement generator produces the subthreshold stimulus (is the stimulus the same as the enhancement signal?). Further, it is unclear if the subthreshold signal is the same signal as the subthreshold pacing mentioned in the claim. Also, is the subthreshold pacing signal the same as the signal generated by the chaos control generator?

As above, claim 22 also is indefinite in that it is unclear where the subthreshold stimulus comes from, and if it is the same signal as the subthreshold pacing. Also, is the subthreshold pacing the same as the control electrical signal?

Allowable Subject Matter

2. Claims 1-31 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
